

Dear {{Salutation or 'friend'}},

You're receiving this because we have a **special opportunity for donors**.

As you know, Compassion & Choices is funded almost entirely by the generosity of our supporters. We receive limited grants and no federal funding. Our ability to provide you with [free end-of-life planning resources](#) and run centers like [Compassion Legal](#) hinges on the willingness of people like you to give what they can, when they can.

Right now, through June 30, your gift can go five times as far. For every dollar you give today, we're able to match with \$5.

[GIVE NOW](#)

With your \$20 gift — which would have an impact of \$100 — we could:

- Fund an intake call for a potential plaintiff in a lawsuit to ensure end-of-life wishes are honored by hospitals and health care systems
- Print 300 petitions that can be signed and delivered to legislators
- Provide a virtual training to clinicians, doulas, students, and/or healthcare professionals

With your \$100 gift — which would have an impact of \$500 — we could:

- Fund a radio or podcast interview segment to reach a broader audience on the importance of end-of-life options
- Hire a translation service for one of our public events to ensure we are reaching people in the ways most accessible to them
- Sponsor a professional conferences or event, putting information about Compassion & Choices in the hands of hundreds of health care professionals

[GIVE NOW](#)

Of course with more, we can do more. But it's equally true that every dollar makes a difference.

Thank you for being part of this movement. Whether you're sharing content about Compassion & Choices, volunteering in your community, or making sure your own end-of-life wishes are documented, you're making a difference. And giving makes a difference too. [Let's match your gift today — x5!](#)

With warmth and gratitude,
Compassion & Choices

Compassion & Choices strives to **improve end-of-life care** through systemic and policy change, **expand options** for the end of life, **defend and protect** those options and **empower everyone** to chart their own end-of-life journey. Learn more at CompassionAndChoices.org.

Dear {{Salutation or 'friend'}},

[National Make-A-Will Month is drawing to a close](#), so don't miss the chance to create a lasting legacy for yourself, and for everyone to choose their own end-of-life plans.

At Compassion & Choices, we invite you to reflect on your future and the values that you hold closest to your heart. A will is more than a document; it's a powerful vision that lets you create a legacy to empower others on their own end-of-life journey, mirroring the mission we carry out every day.

With our partner [FreeWill](#), you can easily create your will online for free and include a gift to Compassion & Choices, cementing our vision into your lasting legacy.

[START MY WILL](#)

The selfless act of giving to Compassion & Choices in your will ensures our shared vision of improving care, expanding options, and empowering individuals continues for generations to come.

Take this essential step today to shape the world of tomorrow with dignity and choice, and start your legacy today.

With warmth and gratitude,
Sam

Sam Young
Senior Director of Legacy & Planned Giving.

[5 Days Left to Go of \\$300k in 30 Days.](#)

[Did you miss day 10? Catch up here.](#)

Dear {{Salutation or 'friend'}},

No one said it would be easy to achieve our goals. But, state by state, bill by bill, we are continuing our march of progress.

Take New York: Over the last decade, our New York staff and volunteers have been steadfast in their advocacy.

Authorizing medical aid in dying in the nation's fourth-largest state would mark a huge jump toward meeting our strategic goal of ensuring that half of all Americans can access this compassionate option.

With your support, more states are moving to authorize medical aid in dying.

[GIVE NOW](#)

This legislative session, momentum in New York hit an all-time high. Our coalition of support grew to more than 50 statewide organizations, including The Medical Society of the State of New York and The New York State Council of Churches.

But New York lawmakers failed their dying constituents yet again.

And still, we will continue the fight for end-of-life autonomy.

This legislative session, momentum in New York hit an all-time high. Our coalition of support grew to more than 50 statewide organizations, including The Medical Society of the State of New York and The New York State Council of Churches.

But New York lawmakers failed their dying constituents yet again.

And still, we will continue the fight for end-of-life autonomy.

[Support Our Work.](#) With your support, we'll keep fighting in other states, too. The Delaware Senate is currently reviewing medical aid in dying legislation for the first time, and bills also remain under active consideration in Illinois and Massachusetts through the end of this year.

[Will you please consider pledging a recurring gift before June 30?](#)

Thank you for all you do.

Sincerely,
Compassion & Choices

Dear {{Salutation or 'friend'}},

Dementia profoundly impacts our society and demands a shift in end-of-life care perspectives. As the national director of clinical engagement at Compassion & Choices, I see this need play out daily as we strive to provide individuals and families the tools they need to navigate this complex journey. Information and proactive planning are paramount to having your values and priorities honored in the final stage of life.

Have your gift matched when you support our dementia work by giving to the [2024 Annual Fund today!](#)

One important way we are changing the conversation is with our new and improved [Dementia Values and Priorities Tool](#). This interactive resource helps document your wishes regarding the care you want (or do not want) to create a free specialized addendum to your advance directive to share with loved ones and your healthcare team.

The updated tool incorporates direct feedback from supporters, volunteers, community focus groups and clinical experts to address people's unique needs as dementia progresses. We've even developed a series of videos to provide detailed information on key terms in plain language.

Your generosity has been instrumental in improving this resource and continues to drive our nationwide impact. Will you support our work to help people navigate a dementia diagnosis with a gift to our [2024 Annual Fund?](#)

The tool is 100% confidential and no longer requires a password or account to access. It also aligns with the Compassion & Choices My End-of-Life Decisions toolkit and POLST/MOLST forms.

The experience is highly customizable, with options to answer or skip a question and open fields to enter additional details specific to you. As you explore the tool, you will notice that it encourages you to consider your values and future options, such as long-term or hospice care.

We believe in this tool as a guide for you and your loved ones that has the power to impact how our society honors the priorities of people living with dementia.

[Cultivate Compassion: Match my gift!](#)

Your support makes transformational resources like this possible.

With gratitude,

Jessica Empeño, MSW
National Director, Clinical Engagement
