

Dear {{Salutation or 'friend'}},

We're thrilled to see such a positive response to our [Advance Care Planning Certificate Program](#), developed in partnership with the Goals of Care Coalition of New Jersey. We are proud to offer this course to healthcare professionals all across the country, helping them bring confidence, compassion and care to meaningful conversations about advance care planning.

Advance care planning requires familiarity with a range of clinical and legal tools, including identifying a healthcare proxy, completing an advance directive and understanding when a POLST form may be appropriate. It also involves helping patients and families understand how care approaches — such as palliative care and hospice — differ based on prognosis, goals and stage of illness. The Advance Care Planning Certificate Program prepares healthcare professionals to navigate these distinctions and to communicate clearly and thoughtfully with patients and their loved ones as care preferences evolve.

Dear {{Salutation or 'friend'}},

Earlier this month, we recognized National Healthcare Decisions Day and the essential role healthcare professionals play in guiding conversations about care preferences and goals.

As this work continues beyond a single day, [we invite you to join us for a live conversation](#) focused on how these discussions take shape in practice.

On [Tuesday, May 12, at 10 a.m. PST](#), Compassion & Choices and Goals of Care Coalition of New Jersey (GOCCNJ) will host a webinar exploring the role of healthcare professionals in advance care planning, with practical insights and resources to support your work.

[ATTEND WEBINAR](#)

This session will offer an opportunity to learn from experienced leaders in the field, ask questions, and gain approaches you can apply in real-world settings.

If you are looking to further build your skills, our accredited [Advance Care Planning Certificate Program](#) remains available, with a 20% discount through May 16 using the code NHDD20.
